

**saha are a registered provider and an exempt charity that started developing housing and services in 1959. We are a wholly controlled subsidiary of The Salvation Army, and have grown into a specialist provider of support and accommodation across England. Kingsown Property Limited and saha Developments Limited are subsidiaries of saha.**

**saha currently own approximately 4100 units of accommodation located across England and work across 86 Local Authority areas. saha both directly manages its accommodation and also works with managing agents, a demonstration of saha's commitment to partnership working for the benefit of local communities.**

SAHA has a diverse stock profile dispersed across the UK, AMI enables SAHA colleagues to readily access, from one central source, prompt, performance and progress information. A quick mouse click offers them a summary overview of their area of responsibility and they can drill down to lower levels of information if required.

From a management perspective, AMI has proved particularly useful, with immediate access to compliance management data covering a number of external partners. For example, where we have multi component M&E contracts, we can quickly access and export programme and performance data for meetings, interventions, or discussions, to maintain proactivity on those contracts.

Other key benefits include the reporting of KPI's to reflect the varying information needs of our Executive Team and Board.
