

Britbuild

The Voice of the National Federation of Builders

Media information

Britbuild is the official magazine for the National Federation of Builders (NFB)

The National Federation of Builders (NFB) represents builders, contractors and house builders across England and Wales. As one of the UK's longest standing trade bodies, it was created to represent the building profession and to promote conditions its members need to thrive and contribute to the economic success of the UK.

Its members range from the sole trader to large, multi-million pound construction companies, with turnover ranging from below £500,000 to over £500 million. The federation provides expert advice, training, representation and business services for members so that they can comply with industry standards, excel in delivery, and grow successful businesses.

Published three times per year, April, July and October, each issue will focus on the latest industry and NFB news, current issues and interesting

topics, plus a look inside look at business activities and the profiles of prominent individuals within the industry.

Over the course of the year 30,000 copies - 10,000 per issue are printed and distributed and read on average by 90,000 key individuals across a number of sectors including:

- Regional member and associates
- Building contractors
- Builders merchants
- Council planning departments
- Council building control departments
- Architects
- Training colleges
- CITB
- Construction lawyers
- Social housing groups
- Quantity surveyors

INWU are on the right track at Denmark Hill Station

Comprehensive access improvements of busy London station are already receiving significant recognition, having been nominated for numerous awards.

When it comes to the drive for station accessibility, the construction sector, particularly as a contractor, has a significant role to play. This is especially true in the case of London's busy Denmark Hill Station, where INWU Construction has been instrumental in ensuring that the station is accessible to all.

INWU are a multidisciplinary team providing project management services, site supervision, quantity surveying, cost management, and design services. They have been instrumental in ensuring that the station is accessible to all, including those with disabilities. The project has received numerous awards for its innovative and accessible design.

Boilers

3 boiler myths debunked

Common 'gas boiler ban' really mean for the industry?

There are three key points to be aware of when it comes to gas boilers. First, the ban on new gas boilers is not a ban on existing gas boilers. Second, the ban is not a ban on gas boilers in general, but specifically on new gas boilers. Third, the ban is not a ban on gas boilers in all cases, but specifically in new-build homes.

Industry news

NFB calls for more action over shortage of drivers

The National Federation of Builders (NFB) has announced that it will be lobbying the government to take more action to address the shortage of drivers in the construction industry.

Women in Construction: What the NFB is doing to help your business

The NFB is committed to promoting gender equality in the construction industry. We are currently running a series of initiatives to help women in construction, including a new training program and a mentorship scheme.

Boilers

Electric boilers are also much safer than gas boilers. Unlike gas boilers, electric boilers do not produce any carbon monoxide. They are also much easier to install and maintain. However, they are generally more expensive than gas boilers.
