Media information

Housebuild is the official magazine for The House Builders Association

The *House Builders Association (HBA)* is the division of the NFB devoted to small and medium-sized housebuilders. The *HBA* is very active in lobbying government to formulate policy that encourages and rewards smaller housebuilders; we can point to many successes that have changed the landscape for small and medium-sized house builders.

The *HBA* is also the key forum for information sharing about the housing sector for small and medium-sized housebuilders, providing newsletters, forums and direct one-to-one advice that ensures companies are best placed for success.

They understand the link between construction

and housing, and they understand the policy landscaping inside-out. Their overriding aim is to use their knowledge and influence to support members to win more work, more consistently.

Housebuild will focus on the latest industry news in planning, environment, government, finance & future materials and will be distributed to key individuals across a number of sectors including:

- **Regional member and associates**
- **Building contractors**
- **Council planning departments**
- **Council building control departments**
- **Architects**
- **Training colleges**
- **Construction lawyers**
